Contents

NUMBER 1, MARCH 1992

T.G. GILLILAND and J. JOHNSTON. Barley/pea mixtures as cover crops for grass re-seeds 1

G. SWIFT, M.W. MORRISON, A.T. CLELAND, C.A.B. SMITH-TAYLOR and J.M. DICKSON. Comparison of white clover varieties under cutting and grazing 8

D.J. MOWAT and S. JESS. The reduction of frit fly oviposition on seedling ryegrass by the presence of oats 14

B.A. JONES, L.D. SATTER and R.E. MUCK. Influence of bacterial inoculant and substrate addition to lucerne ensiled at different dry matter contents 19

L.E. PHILLIP, L. UNDERHILL and H. GARINO. Growth performance, appetite and plasma ammonia concentrations in heifers fed inoculated lucerne prior to ensilage, then supplemented with sodium bicarbonate 28

L.O. FIEMS, Ch. V. BOUCQUÉ, B.G. COTTYN, R.J. MOERMANS and D.L. DE BRABANDER. Effect of virginiamycin supplementation on the performance of young grazing cattle 36

N.J. HUTCHINGS, G.R. BOLTON and G.T. BARTHRAM. Decision rules for controlling the sward height of continuously grazed experimental pastures 41

A.C. ARMSTRONG and D.A. CASTLE. Potential impacts of climate change in patterns of production and the role of drainage in grassland 50

T.H. DAVIES and JANET RILEY. Reseeding in the Falkland Islands. Herbage production of a range of grass species and cultivars 62

D.M.B. CHESTNUTT. Effect of sward surface height on the performance of ewes and lambs continuously grazed on grass/clover and nitrogen-fertilized grass swards 70

E.A. LACA, E.D. UNGAR, N.G. SELIGMAN, M.R. RAMEY and M.W. DEMMENT. An integrated methodology for studying short-term grazing behaviour in cattle 81

E.A. LACA, E.D. UNGAR, N. SELIGMAN and M.W. DEMMENT. Effects of sward height and bulk density on bite dimensions of cattle grazing homogeneous swards 91

NUMBER 2, JUNE 1992

J.L. JACOBS and A.B. McALLAN. Protein supplementation of formic acid- and enzyme-treated silages. 1. Digestibilities, organic matter and fibre digestion 103

J.L. JACOBS and A.B. McALLAN. Protein supplementation of formic acid- and enzyme-treated silages. 2. Nitrogen and amino acid digestion 114

J.L. JACOBS, M.J. HAINES and A.B. McALLAN. The effects of different protein supplements on the utilization of untreated, formic acid-treated or enzyme-treated silages by growing steers 121

R.J. JONES and C.E. LASCANO. Oesophageal fistulated cattle can give unreliable estimates of the proportion of legume in the diets of resident animals grazing tropical pastures 128

R.J. THOMAS. The role of the legume in the nitrogen cycle of productive and sustainable pastures 133

J.D. MORTON, G.R. BOLTON and J. HODGSON. The comparative performance of *Holcus lanatus* and *Lolium perenne* under sheep grazing in the Scottish uplands 143

N.J. HUTCHINGS. Factors affecting sonic sward stick measurements: the effect of different leaf characteristics and the area of sward sampled 153

K. MARTINSSON. Effects of conservation method and access time on silage intake and milk production in dairy cows 161

JANE WOLEDGE, A. REYNERI, VERONICA TEWSON and A.J. PARSONS. The effect of cutting on the proportions of perennial ryegrass and white clover in mixtures 169

C.T. DOUGHERTY, M. COLLINS, N.W. BRADLEY, L.W. LAURIAULT and P.L. CORNELIUS. The effects of poloxalene on ingestion by cattle grazing lucerne 180

K. MARTINSSON. A study of the efficacy of a bacterial inoculant and formic acid as additives for grass silage in terms of milk production 189

M.A. SHAKEEL and D.J. MOWAT. The potential transmission of clover rot, *Sclerotinia trifoliorum* Erikss., by slugs 199

A.S. LAIDLAW and JAN McBRIDE. The effect of time of sowing and sowing method on production of white clover in mixed swards 203

NUMBER 3, SEPTEMBER 1992

C.T. DOUGHERTY, N.W. BRADLEY, L.M. LAURIAULT, J.E. ARIAS and P.L. CORNELIUS. Allowance-intake relations of cattle grazing vegetative tall fescue 211

A.S. LAIDLAW, N.G. TEUBER and J.A. WITHERS. Out-of-season management of grass/clover swards to manipulate clover content 220

JANE WOLEDGE, KERRY DAVIDSON and W.D. DENNIS. Growth and photosynthesis of tall and short cultivars of white clover with tall and short grasses 230

R.W.J. STEEN. The performance of beef cattle given silages made from perennial ryegrasses of different maturity groups, cut on different dates 239

D.A. DAVIES, M. FOTHERGILL and C.T. MORGAN. Assessment of contrasting perennial ryegrass, with and without clover, under continuous sheep stocking in the uplands. 4. Animal performance in years 4–6 249

J.M.M. MUNRO, D.A. DAVIES, W.B. EVANS and R.V. SCURLOCK. Animal production evaluation of herbage varieties. 1. Comparison of Aurora with Frances, Talbot and Melle perennial ryegrasses when grown alone and with clover 259

R. COOK, K.A. MIZEN, R.A. PLOWRIGHT and P.A. YORK. Observations on the incidence of plant parasitic nematodes in grassland in England and Wales 274

P.M.R. DAMPNEY. The effect of timing and rate of potash application on the yield and herbage composition of grass grown for silage 280

K.C. TYSON, E.A. GARWOOD, A.C. ARMSTRONG and D. SCHOLEFIELD. Effects of field drainage on the growth of herbage and the liveweight gain of grazing beef cattle 290

G.C. LEWIS. Effects of ryegrass endophyte in mixed swards of perennial reyegrass and white clover under two levels of irrigation and pesticide treatment (Research Note) 302

G. THORVALDSSON. The effects of temperature on digestibility of timothy grass (*Phleum pratense* L.), tested in growth chambers (Research Note) 306

NUMBER 4, DECEMBER 1992

C.W. HOLMES, C.J. HOOGENDOORN, M.P. RYAN and A.C.P. CHU. Some effects of herbage composition, as influenced by previous grazing management, on milk production by cows grazing on ryegrass/white clover pastures. 1. Milk production in early spring: effects of different regrowth intervals during the preceding winter period 309

C.J. HOOGENDOORN, C.W. HOLMES and A.C.P. CHU. Some effects of herbage composition, as influenced by previous grazing management, on milk production by cows grazing on ryegrass/white clover pastures. 2. Milk production in late spring/summer: effects of grazing intensity during the preceding spring period 316

G.T. BARTHRAM, S.A. GRANT and D.A. ELSTON. The effects of sward height and nitrogen fertilizer application on changes in sward composition, white clover growth and the stock carrying capacity of an upland perennial ryegrass/white clover sward grazed by sheep for four years 326

D.R. EVANS, T.A. WILLIAMS and S.A. EVANS. Evaluation of white clover varieties under grazing and their role in farm systems 342

P.M. HAIGH. The effect of an acid salt-type additive on the fermentation of grass silages made in bunker silos on commercial dairy farms in Wales 353

J.H. NEUTEBOOM, E.A. LANTINGA and E.N. VAN LOO. The use of frequency estimates in studying sward structure 358

L. JONES. Preliminary trials using a white clover (*Trifolium repens* L.) understorey to supply the nitrogen requirements of a cereal crop 366

A.L. HART and W.A. COLLIER. Nutrient efficiency and cellular contents of phosphorus and nitrogen in *Trifolium repens* and a diploid and tetraploid *Lotus uliginosus* 375

R.L. FAIRBAIRN, I. ALLI and L.E. PHILLIP. Proteolysis and amino acid degradation during ensilage of untreated or formic acid-treated lucerne and maize 382

D.G. CHAMBERLAIN, P.A. MARTIN, S. ROBERTSON and E.A. HUNTER. Effects of the type of additive and the type of supplement on the utilization of grass silage for milk production in dairy cows 391

J.H. GRABBER and D.W. ALLINSON. Anatomical structure and digestibility of reed canarygrass cultivars and hybrid ryegrass (Research Note) 400
